

SAILING REQUIREMENTS

Sailing Resumes:

- **New clients** need to submit a sailing resume.
- **Repeat guests** are not required to submit another resume, with the exception of Seychelles.
- **Night sailing (if permitted):** 2 Sailing Resumes (skipper/co-skipper) must be submitted to Moorings for approval.
- **Racing with a bareboat:** Any guest who wishes to race with a Moorings bareboat must indicate his intents to The Moorings and must fill-in a Sailing Resume.
- Base managers will have the right to put a skipper on a yacht if they feel the customer is not able to operate the yacht safely.
- All existing Moorings clients (guests who have sailed with The Moorings at least ones) are automatically approved to charter with Footloose or Moorings Power.

Sailing Licenses:

Summary of requirements:

- All bases in the Med and Seychelles require a Crew List & Sailing Resume for first-time charterers.
- Sailing License required - Greece, Turkey & Croatia - and in some cases Italy (add'l info needs to be send to the base in advance - see complete list of requirements for more details.)
- Sailing Resume required for (Repeater) - Turkey & Seychelles

Charterer must have a Skipper if:

- Experience is only on small boats (under 25 feet)
- No experience in anchoring or chart work
- Experience is basically power boating
- Experience has been on (small) inland lakes only

***Note:** when a resume is questionable, Moorings Yacht Operations Manager should make the final decision as to whether a skipper is needed. Any «base assigned» skipper is at the charterer's expense and, when necessary, should be stressed to the charterer so there are no surprises if the base decides that a checkout or full time skipper is needed.*
